

Trust. Delivered.

KNEuroLink Providing reliable, cost-efficient network solutions.

Overland Groupage

KUEHNE+NAGEL

A commitment to reliability and efficiency

Kuehne + Nagel has a world-class reputation that is built on 125 years of experience, integrity and the highest standards of customer satisfaction.

Our KN EuroLink service provides you with highly reliable and efficient groupage transportation to meet your shipping needs. With dependable, on-time performance and fast lead times, our extensive network gives you full distribution coverage across Europe. Working closely with you, we define the best solutions to fulfil your logistic needs.

KN EuroLink opens up Europe by connecting all countries in our European network. Through our sophisticated operations, we offer attractive day-definite lead times, guaranteed departures and high-frequency schedules for shipments up to 2,500 kg – and up to 2 loading metres. Our European network is connected by our direct KN EuroLink lanes and optimised by a comprehensive hub-and-spoke system.

With our fleet of over 5,000 trucks and trailers as well as long-term partnerships with preferred subcontractors, we give you maximum capacity and flexibility for all your logistics needs. All our contractors are regularly audited to maintain the highest standards of quality and integrity.

KN EuroLink

The solution you need if you are looking for a high-quality, pan-European groupage service with guaranteed departures and accurate, day-definite lead times for shipments of up to 2.5 tonnes and 2 loading metres

KN EUROLINK OFFERS A COMPREHENSIVE RANGE OF LOGISTICS AND TRANSPORT SERVICES INCLUDING:

- Fixed lead times from pick up to delivery location, based on our network transport plan
 - Shipment visibility via best-in-class track and trace system (KN Login) across all transport modes
 - Transportation of dangerous goods in line with ADR/IMO regulations
 - Reliable, door-to-door delivery throughout Europe
-

Delivering value-driven solutions throughout Europe

Our teams of dedicated experts combine local expertise and unrivalled customer service with international reach. They are always developing new ways to support businesses and take pride in delivering efficient, tailored services – whatever you need.

KN EuroLink brings you even closer to your customers by providing fast, reliable and cost-efficient groupage services throughout the whole of Europe. With over 180 Kuehne + Nagel branches and hubs, our European overland freight network provides extensive coverage and a high density. Our teams of highly trained local experts offer a comprehensive range of logistics skills. Whatever transportation or logistics services you require, we will be always able to offer you a tailored, Europe-wide solution.

IS THERE ANYTHING ELSE YOU NEED?

To enable you to respond quickly, flexibly and individually to the precise needs of your supply chain, our end-to-end logistics packages can provide extra value by including the following services on request:

- Pre-advice service so the consignee can schedule availability for delivery
- Customs clearance
- Delivery on a fixed day
- Additional insurance with KN Sure
- Customer-specific performance reporting with KN Login
- ePOD hard copy

HIGHEST COMMITMENT – PROVEN PERFORMANCE

Give your valuable shipments the dependable treatment they deserve by placing them in the hands of an acknowledged global leader. We will more than fulfil your expectations of professional expertise and service quality.

- Stated lead time in days achieved above 96%
- Information on delivery (IOD) achieved above 95% by 12:00 on day after delivery (Mon – Fri)
- ePOD (electronic proof of delivery online) above 95% by 18:00 on second day after delivery (Mon – Fri)

VISIBILITY AND MONITORING WITH KN LOGIN

KN Login, our industry-leading logistics information tool, enables you to track and trace your shipments around the world – and around the clock. This web-based system lets you manage your supply chain more effectively by providing exactly the information you need, the way you want to see it.

- Pick-up and delivery shipment status
- Electronic copies of critical shipment documentation
- Customised reports (optional)
